Product code: SEPO20

Brand: Topstar

74.693 HUF

Netto price: 58.813 HUF

Description

The Ergo Point SY synchronous mechanical swivel chair is characterized by its ergonomically designed backrest and seat, as well as its favorable price-performance ratio. The height of the swivel chair's seat, which provides lumbar support, and the height of the backrest are both adjustable. The specially shaped backrest provides unusually large room for movement for the back. The Ergo Point SY swivel chair is available with a black star base, without armrests and with fixed armrests, and with soft or hard surface castors. The price applies to the version without armrests, with castors for carpeted floors.
