Description

The ergonomically designed High S'Cool swivel chair for children and young people, made in Germany, "grows" with your child. The height of the seat can be adjusted from 37 to 51 cm. The plastic backrest covered with a special 3D mesh fabric can be adjusted both in height and in the depth of the seat, adapting to the child's height. This is complemented by a height-adjustable lumbar support built into the backrest. By using a well-adjusted, ergonomically designed high chair, we protect our children's health! The High S'cool children's and youth chair is recommended for children and youth children from 6 to 13 years of age (with a maximum load capacity of 60 kg and a height of up to 159 cm).
