Description

The Open Art 2010 is a synchronous mechanical, elastic mesh covered executive swivel chair with an ergonomic backrest, headrest and height-adjustable lumbar support. The Body-Balance-Tec® backrest attachment method provides optimal movement for the back - providing continuous support for the spine. The ergonomic seat shape and the weight-adjustable, extra-high-angle synchronous mechanism ensure perfect comfort! The synchronous mechanism can be locked in its very first position. It is supplied with a black foot star, height-adjustable armrests, castors for carpeted floors. The seat is black, the color of the mesh backrest is selectable. The price includes height-adjustable armrests.
