Description

The Point 70 office chairs are characterized by their ergonomic design, high seating comfort and favorable price-performance ratio. With the Point 70 swivel chairs, the seat height and the height and angle of the backrest can be adjusted. The specially designed seat provides good support for the lumbar vertebrae. Supplied with a black reinforced plastic foot star, self-braking castors for carpeted floors. The Point 70 office chair is available with fixed armrests (2 types) and height-adjustable armrests. The price refers to the version without armrests.
