Description

The Sitness 40E swivel chair with black or white faux leather cover is specially recommended for healthcare and industrial applications. The Sitness 40E is a height-adjustable swivel chair with an ergonomically designed seat, a low, height-adjustable and reclining backrest. The backrest can also be adjusted to distance it from the seat. The patented Body-Balance-Tec® mechanism allows for a unique, three-dimensional movement of the seat surface that strengthens the back muscles. Supplied with chrome foot star and castors for carpeted floors.
