Provides three-dimensional motion height-adjustable seat in several colors

Product code: SU83 BT8

71.622 HUF

Netto price: 56.395 HUF

Description

The version of the highly successful Sitness series made especially for children is Sitness Bobby. The 3D movement of the seat is ensured by a wheel tire made of a special TPU (thermoplastic polyurethane) material under the polished aluminum base. 3D movement strengthens the spine, which can prevent back and spine problems. The Sitness Bobby seat is recommended for children from 5 to 15 years of age (max. 60 kg load capacity, up to 159 cm height). The seat height can be adjusted from 38 to 46 cm.
