Description

The German-made, ergonomically designed Sitness Kid 30 youth swivel chair "grows together" with your child. The backrest is covered with a pleasant, breathable mesh fabric. Both the height of the backrest and the depth of the seat can be adjusted, adapting to the height of the child. The ergonomically designed seat, fenced off at the front, is covered with the same mesh fabric. The special gas spring works from a body weight of 20 kg. 3D freedom of movement is ensured by a dynamic connection between the seat and the frame. With the 3D freedom of movement provided by the seat, the chair continuously activates, trains and builds the back muscles, preventing back and spine problems. By using a well-adjusted, ergonomically designed high chair, we protect our children's health! The Open Art Junior children's and youth chair is recommended for children from 6 to 13 years of age (max. 60 kg load capacity, up to 159 cm height).
